

Fast digital A3 copying

RICOH

Aficio™ | MP 1900

A3 capable

simply
efficient

ease
of
use

Optimise your copy workflow

- Productivity: 19 pages per minute
- Fast warm-up time: Less than 10 seconds
- Simplicity: Clear and concise operation panel
- Efficiency: Electronic sorting and scan once, copy many
- Flexibility: Handles A6 to A3 paper, 52 to 162 g/m²

FAST

The copier warms up quickly – in less than 10 seconds. Only 6.5 seconds later you get your first copy. And with an output of 19 pages per minute, the MP 1900 will not keep you waiting when you need your multi-page documents fast.

SMART

The MP 1900 scans your originals once and stores them in memory. All subsequent copies are produced from there. The electronic sorter delivers your copies in practical batches that you can distribute immediately.

EFFICIENT

Improve your workflow with the optional Automatic Document Feeder, which takes up to 30 originals at a time. For special paper sizes or weights, use the convenient standard bypass tray. You will rarely need to stop and refill, thanks to the 350-sheet capacity.

A3 CAPABLE

Looking for an easy solution to handle your A3 applications? With the MP 1900, copying an original directly onto A3 couldn't be easier. Feed paper originals in batches using the optional Automatic Document Feeder. Books and magazines can be scanned from the platen glass.

STRAIGHT-FORWARD

Forget user manuals and complicated procedures. Instead, use the straight-forward and user-friendly operation panel. It intuitively guides you through all your copy jobs. Paper refills are simple as well – the optional accessibility handle with upper grip makes opening the tray so much easier.

ENVIRONMENT-FRIENDLY

At Ricoh, we help you lower both the environmental impact of your office, as well as your costs. Our products have eco-friendly and money-saving features such as short warm-up time. Thus, energy is saved while costs are reduced. In addition, Ricoh products are Energy Star compliant.

SPECIFICATIONS

COPIER

Copying process:	Laser beam scanning/marketing & electro-photographic printing Dry, dual component toner development
Copy speed:	19 copies per minute (18 cpm one to one copying)
Resolution:	600 dpi
