Eco-friendly and compact black & white MFDs

Increasing your office productivity while simultaneously reducing your environmental impact may appear to be a paradox, but the MP 2553SP/MP 3053/MP 3053SP/MP 3353/MP 3353SP enable you to meet both objectives. These A3 black-and-white multifunction devices incorporate Ricoh's latest controller to give you features to transform your productivity. These include Searchable PDF, ID Card Copy, and extensive scan/fax capabilities. At the same time, short warm-up time, low power consumption and standard duplex make these compact MFDs environment-friendly.

- Advanced controller powers value-added functions
- Energy-saving features reduce operating costs
- Compact, with built-in finisher
- Fast, efficient and productive
- Easy to operate and maintain

Multi-function, multi-benefit

Improved productivity

Ricoh's advanced GWNX controller powers features that improve productivity. Save time searching for documents with Searchable PDF. Scan in colour and send to email, folder, USB, SMB, FTP, URL and NCP. To fax, choose from Internet Fax (T.37), IP-Fax, LAN-Fax, PC-Fax, G3-Fax or remote faxing. Network connectivity is built-in as standard, and @Remote gives you internet-based support for remote management.

Improve workflow and manage productivity

Distribute documents quickly by scanning - in colour, if needed - to email, FTP, SMB or NCP. Print directly from USB memory or SD card, without having to switch on your computer. These devices are also fax-friendly.

Raise productivity by distributing, sharing and managing your documents digitally. Now it is easier and more efficient than ever to integrate paper documents into your digital workflow.

- Simple, user-friendly interface
- Accurate scanning directly into your document environment
- Easy to customise and configure with ready-to-use tools
- Versatile and flexible - GlobalScan NX, PPDM and ESA TransFormer can accommodate all business environments, from smaller companies to major organisations

Green, from start to finish

The Ricoh line-up has been designed with the environment in mind. Paper-saving features include print preview, quota setting, paperless fax and standard duplex. The Eco Friendly Indicator displays usage status in a pop-up screen. TEC values are extremely low, reducing power consumption and CO₂ emissions. In addition, these devices comply with the latest Energy Star and BAM directives.

Speedy, yet compact

The MP 2553SP/MP 3053/MP 3053SP/MP 3353/MP 3353SP are up and running in virtually no time at all, thanks to a warm-up time of only 15 seconds, and a first copy/print speed of 4.2 seconds. Yet, they are surprisingly compact for such high-spec A3 MFDs. One reason is the built-in finisher which avoids the necessity for an external finisher.

Remarkably easy to use

Operating these MFDs is a delight. The large, tiltable LCD screen displays clear, animated menus with buttons that are easy to read and use. The screen can be customised for each user with selectable icons, and the keyboard is available in QWERTY or AZERTY. Routine trouble shooting and maintenance tasks are performed simply via full front access. They print from USB memory stick or SD card, while the HDD has a high memory capacity which saves you time during printing.

Highly secure

These devices incorporate the latest level of security features to meet your requirements and support security standard IEEE2600.1. With HDD encryption and HDD overwrite being standard features, MP 2553SP/MP 3053/MP 3053SP/MP 3353/MP 3353SP keep your data fully protected, as only authorised users are able to access your networks.
